

At **KMA** Services Limited we provide a number of service solutions to suit specific needs, our staff are trained in the maintenance of all types of refrigeration including medical fridges, blast chilling units, freezers, ice machines, cold rooms, freezer rooms or any light or heavy commercial refrigeration system.

KMA Refrigeration Services

At KMA Services Limited we provide refrigeration solutions to suit both light and heavy commercial requirements. From a site survey, we can recommend the best system or work with architects or engineers to supply a tailored system that will meet your demands.

Installations and maintenance can be undertaken at a time that best suits the client and imposes the least amount of workplace interference.

At KMA Services all our refrigeration solutions are installed or maintained to achieve maximum energy efficiency. We perform regular equipment audits to ensure units function within their operational guidelines and compliant with Fgas regulations.

All our staff are trained in the installation and maintenance of all types of refrigeration systems. We are active in

continuously developing our technicians professionally and technically to ensure the highest level of service.
